These proposed changes meet the criteria for changes that may be made administratively: a new project has not been added; air conformity has not been affected; the timely implementation of Transportation Control Measures (TCM) has not been adversely affected; financial constraints have not been impacted; and major scope changes have not resulted.

This administrative amendment will require full State and Federal concurrence and, accordingly, it is simultaneously being forwarded to the reviewing agencies for information. Since this amendment was accomplished administratively, a resolution from the Stanislaus Council of Governments Policy Board is not required.

If you have questions or concerns regarding this administrative amendment, please feel free to call me or Vince Angelino of my staff.

Sincerely,

GARY C. DICKSON
Executive Director
